

I am writing to voice my concern in regard to the FCC proposal that new LPFM stations take priority over current FM translator service. I am particularly concerned about the possible loss of KLOVE from my local community. KLOVE is the only station I and my children listen to. This station provides a very needed service in the community to families such as mine by providing an alternative music choice that is upbeat and uplifting. I am very concerned about the negative influences in this culture, and KLOVE helps me combat them in my home and car. There are plenty of other mainstream music and news options on the radio, but nothing else like KLOVE. KLOVE broadcasts a positive message, encouraging music, and great entertainment. We love KLOVE! I am concerned about possible negative effect on the community the removal of KLOVE would have. I believe KLOVE is a valuable resource and asset to my community and very much hope it continues to be available to me and my children in the future.

Thank you,

Kim Lancaster
